

Conversion of credit points (CP) into ECTS:

You can use the following formula to transfer your credit points into ECTS.

$$\text{ECTS}_{\text{course}} = \text{CP}_{\text{course}} * (60 * \text{years}_{\text{of_degree}}) / (\text{total}_{\text{credits}_{\text{of_degree}}}).$$

For example:

Your BSc degree includes 120 CP in a 4 year program.

You have taken a 3 CP course in mathematics and want to know the number of ECTS of this course:

$$\text{ECTS}_{\text{course}} = 3 * (60 * 4) / 120 = 6.$$
