

Home Building and Renovation Managers

Home Building and Renovation Managers oversee the planning, coordination, and execution of residential construction and renovation projects. They ensure projects are completed on time, within budget, and meet quality, safety, and regulatory standards. Their role combines project management, technical knowledge, and client relations.

Duties and Responsibilities (Points):

- Plan, schedule, and manage home construction and renovation projects
- Supervise contractors, subcontractors, and construction teams
- Prepare budgets, cost estimates, and resource allocation plans
- Ensure compliance with building codes, safety regulations, and quality standards
- Review architectural and engineering plans and provide technical guidance
- Coordinate with clients, suppliers, and other stakeholders
- Monitor project progress and resolve issues or delays
- Conduct site inspections and quality control checks
- Implement sustainable and efficient construction practices
- Maintain project records, reports, and documentation for future reference
